DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or fairly suggest a system capable of chemical vapor deposition as claimed in independent claims 1, 10-12 and 15 further comprising an annular shield at locations adjacent the chemical vapor distributor and/or a seal assembly that extends between the lower and upper housing portions at their horizontal junction, the housing including an exit through which a substrate leaves the deposition chamber at a location below the horizontal junction of the lower and upper housing portions where the seal assembly is located. Further, no other piece of prior art provides motivation for combining these features with the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
